

**School Board Member Candidate Survey: 2023**

Additional comments provided by: Vince Altieri

***Question 1: The legislature is considering state funding for private school vouchers. As a school board member, would you agree or disagree with the idea of using public funds for private school vouchers?***

“As a husband of a nearly 30 year public school teacher, I support charter/school choice as it provides sorely needed competition to a public education system that in some cases is failing our children. Politicians need to stop lobbying about this topic and start allowing the funding to go to these parents in order to make this a reality. In terms of the primary function of a school board director, while the options provided are all encompassing, as a future school board director, I will empower the Superintendent with required resources that allow them to achieve Academic Excellence while providing ALL students and staff members a safe learning environment.”
