

School Board Member Candidate Survey: 2023

“I understand why a voucher system can benefit students who are within public schools that are underperforming, however, unless private schools are held to the same standards and accountability as public schools, I believe a voucher program would take vital public funds away from public schools. Currently, the PA Commonwealth Court has ruled that state funding for public schools is unconstitutional. I believe the state needs to focus on fair funding prior to funneling funds away from their constitutionally required public schools.”

Children First Action Fund is a nonpartisan organization that works to ensure that all children, especially those burdened by poverty and adversity, have the best chance of reaching their full potential. We work on both sides of the aisle, in a non-partisan fashion, to help elected officials learn what it takes for children to succeed and persuade them to support our legislative measures.
