

School Board Member Candidate Survey: 2023

Additional comments provided by: **Graham Perry**

“While I believe that holding students to academic standards is highly important, I would not necessarily say that those standards are above all other considerations. Ensuring a safe and nurturing environment is probably equal to, or greater than that of these standards. Students who are currently enrolled in our schools have had challenges, such as the pandemic, shootings, and geo-political disruptions, the likes have not been seen in generations. To meet these academic standards we must understand and make corrections to our curriculum to safely, and equitably raise up our students while building confidence in themselves.”

Children First Action Fund is a nonpartisan organization that works to ensure that all children, especially those burdened by poverty and adversity, have the best chance of reaching their full potential. We work on both sides of the aisle, in a non-partisan fashion, to help elected officials learn what it takes for children to succeed and persuade them to support our legislative measures. If you have any questions, please reach out to childrenmatteractionfund@gmail.com.
